🔗 Bidur-Khanal 🌐 bidurkhanal5 🎓 BidurKhanal ResearchGate: Bidur-Khanal

RESEARCH INTEREST

General: Medical Image Analysis, Computer Vision, Deep Learning, Machine Learning, Artificial Intelligence
Specific: Robust Machine Learning for Medical Image Analysis and Healthcare Applications.

EDUCATION

Ph.D. in Imaging Science *Aug 2020 - Present*
Rochester Institute of Technology Rochester, NY, USA
GPA: 3.97/4.00
Thesis: *Medical Image Analysis with Deep Learning on Limited or Noisy Labeled Data*

Bachelor's in Electronics and Communication Engineering *Nov 2013 - Dec 2017*
Institute of Engineering, Pulchowk Campus, Tribhuvan University Lalitpur, Nepal

RESEARCH EXPERIENCE

Graduate Research Assistant *July 2022 - Present*
Rochester Institute of Technology; BiMVisIGN Lab Rochester, NY, USA

- Studied how network architecture, pretraining methods, and dataset characteristics affect the medical image classification robustness amidst noisy labels in several settings. (1st paper published at EMBC 2024; 2nd paper submitting to MedIA journal)
- Developed a method to robustly train medical image classifiers on noisy, imbalanced datasets, iteratively improving labels through active sampling of noisy samples (accepted at MICCAI 2024).
- Improved the robustness of medical image classification against noisy labels by using self-supervised pretraining (published at DEMI Workshop, MICCAI 2023).
- Developed a multimodal active learning method for 2D brain tumor segmentation and chest x-ray classification (accepted at MIUA 2023).
- Investigated the impact of class-dependent label noise in medical image classification on noise-free classes with subtle visual differences (published at SPIE Medical Imaging 2023).

Graduate Research Assistant *Jan 2021 - June 2022*
Rochester Institute of Technology; Machine and Neuromorphic Perception Lab Rochester, NY, USA

- Investigated the impact of heterogeneous label noise on deep learning-based vision tasks in multi-class, multi-task, and multi-label scenarios (published at ISVC 2021).
- Conducted an extensive study of online learning classifiers (streaming LDA, PA classifier, NCM, and AROW) for efficient continual learning.

Machine Learning Research Assistant *April 2019 - Aug 2020*
NepAl Applied Mathematics and Informatics Institute for Research Lalitpur, Nepal

- Developed deep learning framework for vertebra detection, spinal curvature estimation, and scoliosis detection from X-ray images (published at MICCAI 2019 AASCE Challenge).
- Created a colorimetric PAD image dataset for pesticide concentration estimation using smartphone cameras, and benchmarked it with various ML models. (published at ACS Omega 2021).

INDUSTRY WORK EXPERIENCE

Camera Software Quality Intern
NVIDIA Corporation

May 20, 2024 - Aug 23, 2024
Santa Clara, CA, USA

- Explored and developed a deep learning-based method for assessing camera image quality.
- Investigated the use of Vision Language Models for image quality assessment.

Deep Learning Engineer
Zeg, 3D AI solution Company (Worked remotely, part-time consulting job)

Dec 2019 - Aug 2020
London, UK

- Implemented several GAN models for adding realism to computer-rendered images.
- Developed deep learning-based framework for key points detection in 2D images for 3D modeling.

Firmware/Image Processing Engineer
Nepal Digital Systems (startup company)

Feb 2018 - Aug 2018
Lalitpur, Nepal

- Interfaced Raspberry Pi, Picamera, and GSM/GPS module with effective network communication for home automation application.
- Built OpenCV-based computer vision pipeline for edge devices to assess material strain under force.

TEACHING EXPERIENCE

Teaching Lab Assistant
Second Nepal Winter School in AI

Dec 10 - Dec 20, 2019
Pokhara, Nepal

- Prepared lab assignments for Pytorch tutorial on deep learning.
- Supervised lab activities: Teaching and assigning lab works in Python to beginner students.

PROFESSIONAL SERVICE

- Reviewer**, International Conference on Medical Image Computing and Computer Assisted Intervention 2024.
- Reviewer**, AAAI Conference on Artificial Intelligence 2024.
- Reviewer**, Data Engineering in Medical Imaging, MICCAI 2024.
- Reviewer**, PLOS ONE Journal 2024.
- Reviewer**, International Conference on Medical Image Computing and Computer Assisted Intervention 2023.
- Reviewer**, Data Engineering in Medical Imaging, MICCAI 2023.
- Reviewer**, AAAI Conference on Artificial Intelligence 2023.
- Technical Program Committee**, Workshop on Data Engineering in Medical Imaging, MICCAI 2023 and 2024.

ACADEMIC HONOR OR AWARD

- Award**, IEEE EMBC NextGen Scholar 2024
- Award**, Graduate Student Research and Creativity Reimbursement 2023
Rochester Institute of Technology, NY, USA
- Traineeship**, AWARE-AI NSF Research Trainee Jan 2022 - May 2022
- Scholarship**, Merit-Based Engineering Scholarship in Bachelor's Degree 2018
Provided by MoGA Nepal for Children of Government Employees
- Scholarship**, Received stipend each semester for securing top 24 position in class. 2013 - 2017
Electronics and Communication Engineering, IOE, Pulchowk, Tribhuvan University, Nepal

LEADERSHIP AND PERSONAL GROWTH

- Tiger Tales Toastmasters**
Rochester Institute of Technology, NY, USA
 - **Active Member**, Presentation Mastery pathway Aug 2022 - Present
 - **Sergeant at Arms Role**, Responsible for logistics at Toastmasters meetings. May 2023 - Dec 2023
 - **Treasurer**, Responsible for managing logistics at Toastmasters meetings. Jan 2024 - May 2024
- First Treasurer** of Nepal Student Association at RIT April 2020 - April 2021
- Idea Presentation, Himalayan Television, Nepal** 2017
Presented for the best idea award in the Energy and Sustainability category.

TECHNICAL SKILLS

- Programming Languages** Python(Proficient), MATLAB (Intermediate), C/C++ (Basics)
- Python Packages** Pytorch, Tensorflow, Keras, Matplotlib, Seaborn, Numpy, Scipy, Scikit-Learn, Pandas, OpenCV, Regex, Jupyter
- Tools and Frameworks** Git, Bash, Conda, SLURM, AWS, ITK-SNAP, Neptune, Weight & Biases
